Peaceful Activities

Who drew the pictures?

Rabbit and Bear is illustrated by Jim Field. You can learn to draw different characters with Jim Field at <https://www.jimfield.me/draw> or you could have a go at copying some of the great pictures in your book.

Drawing

These special pencils are great for drawing! You could use your stencils to have a go at making your own Woodland creatures!

Make a map

Jim Field has made a map of where Rabbit and Bear live in the front of his book. Can you make a map of where you live?

Night and Day

Jim Field's pictures show night and day brilliantly. Can you make a night picture, or a day picture? How will you make them?

Where could they live?

Can you draw forest habitats for these sticker animals to live in? Will they need huge trees or tiny holes? Do you think they will be cross like Rabbit or calm like Bear?
